BOOK

1 **Your hands** are a very important tool to *explore, create and give life to your ideas*. They are also used to communicate without using words. For example, joining your thumb and index finger while keeping your other three fingers upright is a universal sign for OK as shown in this drawing. **Can you think about other signs that communicate using only your hands?**

2 **Your family** is your home, *they provide all of the support you need to grow into a well rounded person that has good ideas to share. Families look very different and they all are extremely valuable, **can you draw yours?***

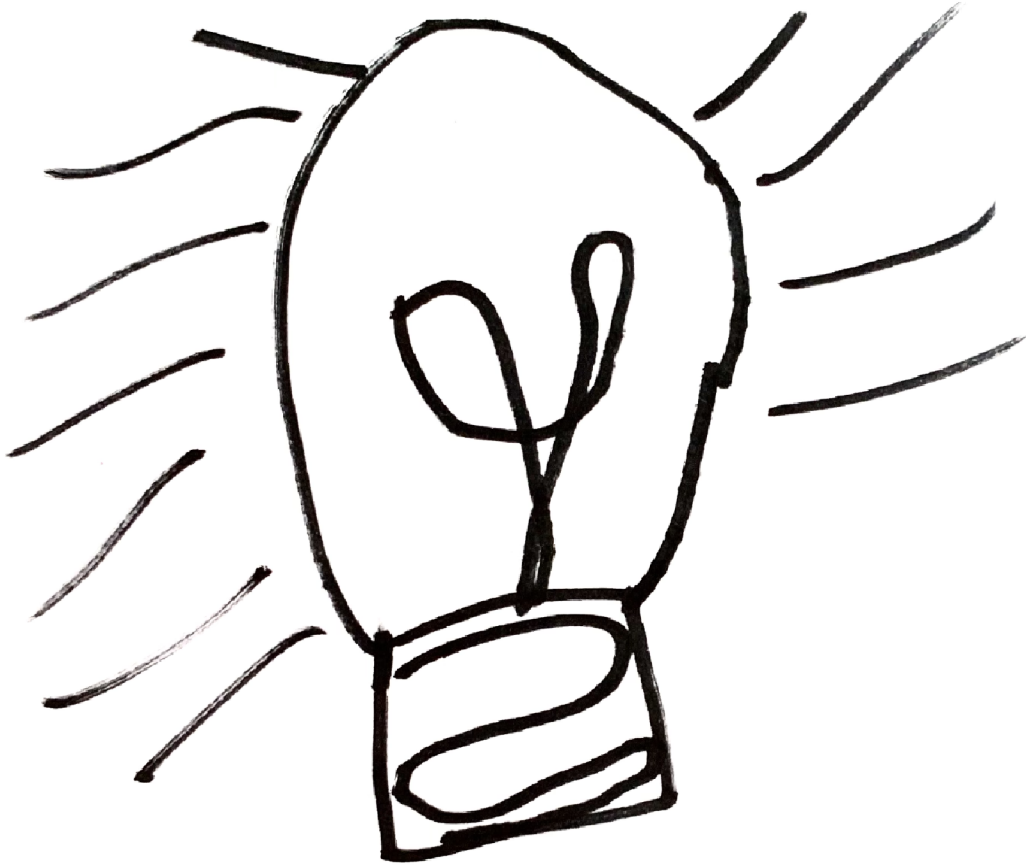

3 Reading feeds your imagination and helps you create and come up with new and more impressive ideas. They could be scientific and real and they also can be based in fantasy and story telling. **What is your favorite book? Write its title over the line below**

Book Title:

4

Ideas are generated by your brain and *you use them basically for everything in your day to day life.* You can have a cool idea for a new game, new dance move, fascinating names for your stuffed animals and ways to sort out different problems like how to jump over a rock or climb a tree. **Can you think of three fun new ideas? List them below**

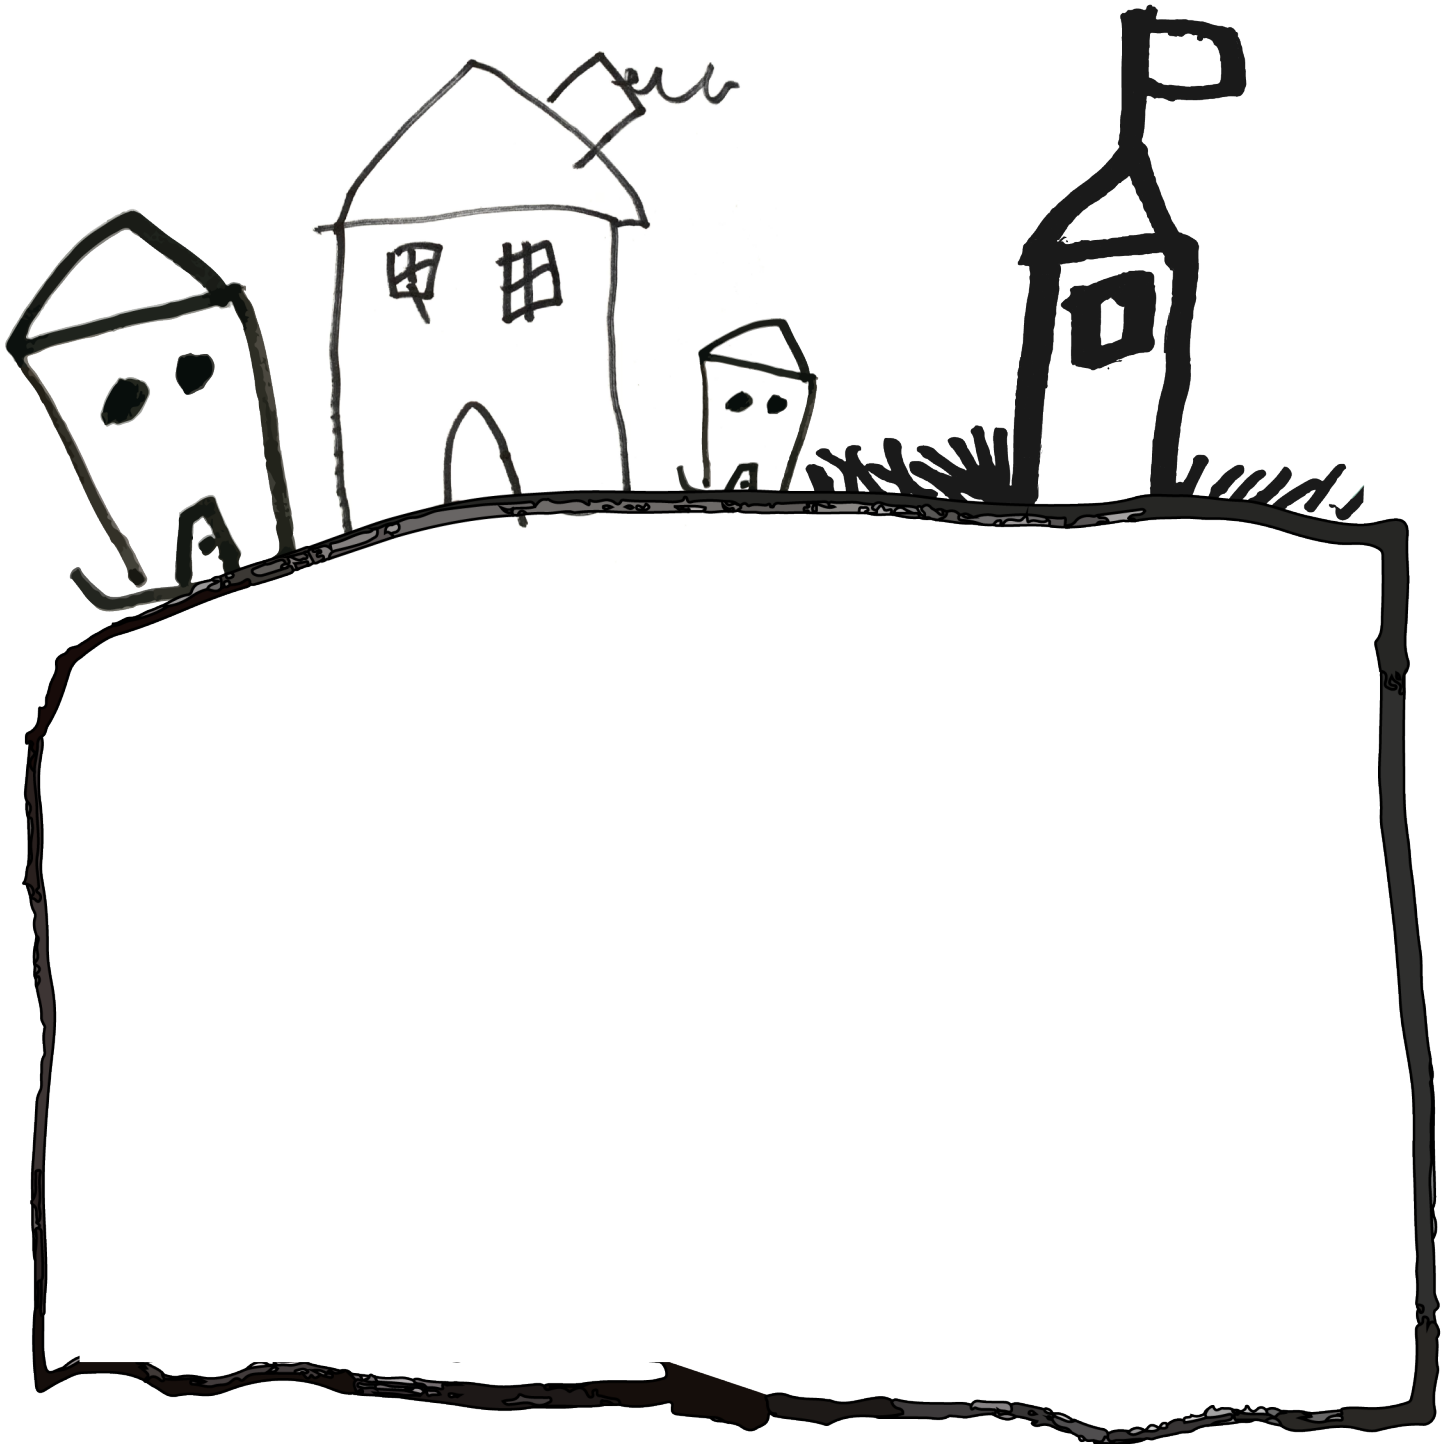

1.

2.

3.

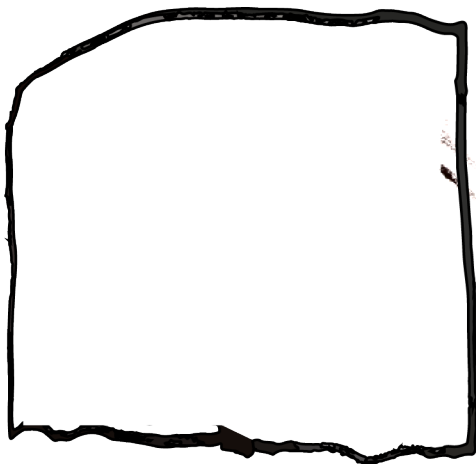

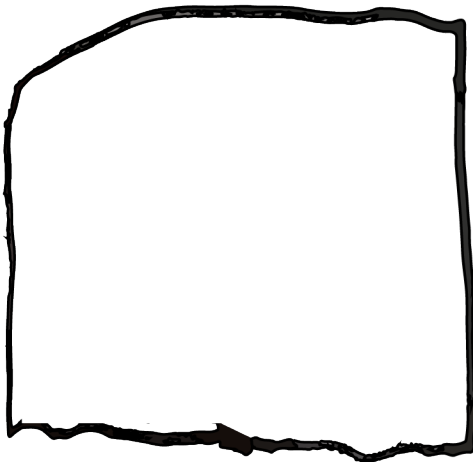

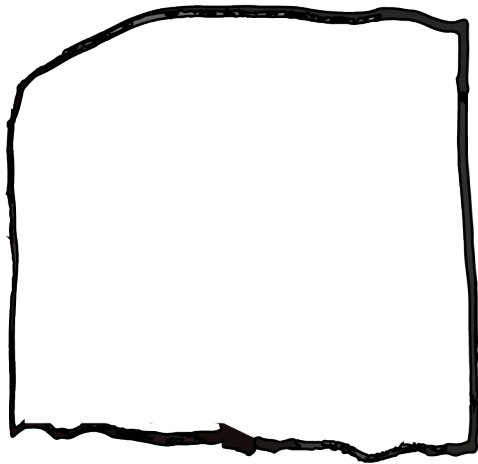

5

Houses have many shapes, sizes and colors but they sure make each one of us feel really safe don't you think? Returning home after a long day of school or a very interesting play date always feel nice. **What is your favorite part of your house? draw it below.**

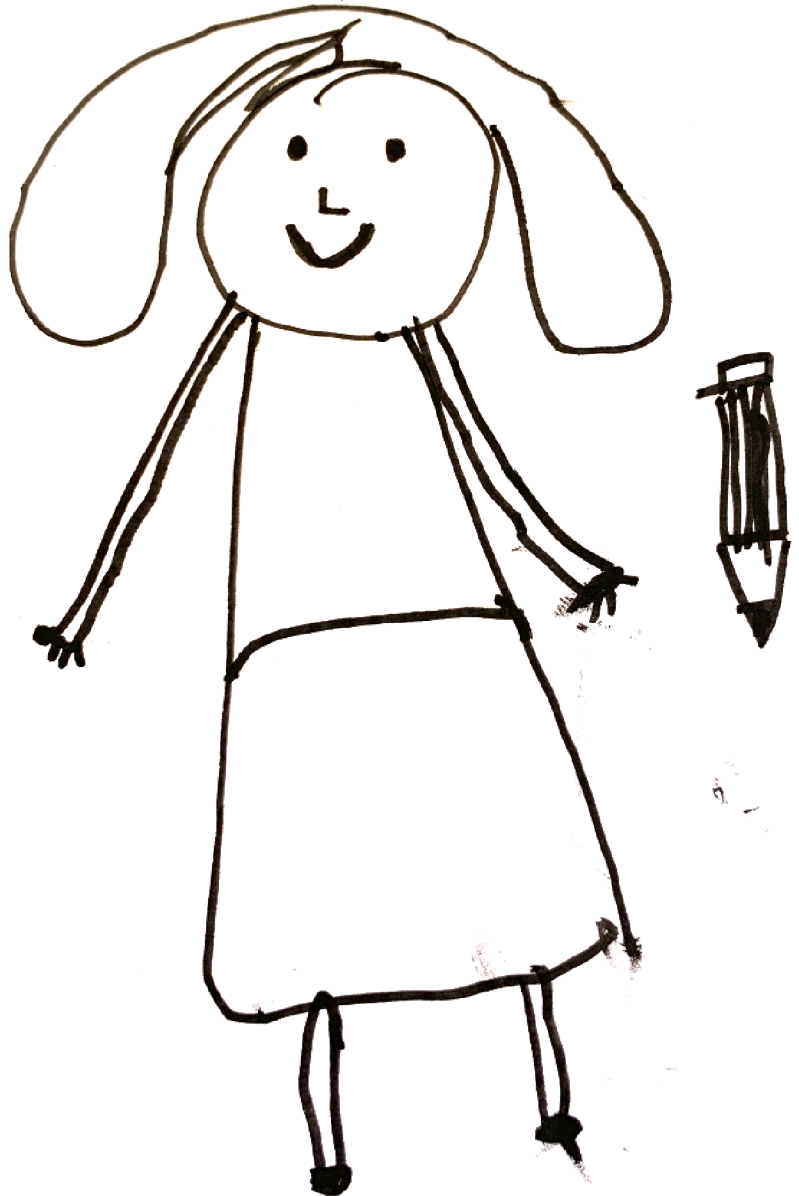

6

“Profesora” means teacher in Spanish and *they have the great ideas* for games, art pieces, role playing and so much more! Teachers normally use pencils for a lot of things like drawing or writing. **Can you think of three more things your teacher commonly use? Draw them in the boxes on the left side of the page.**

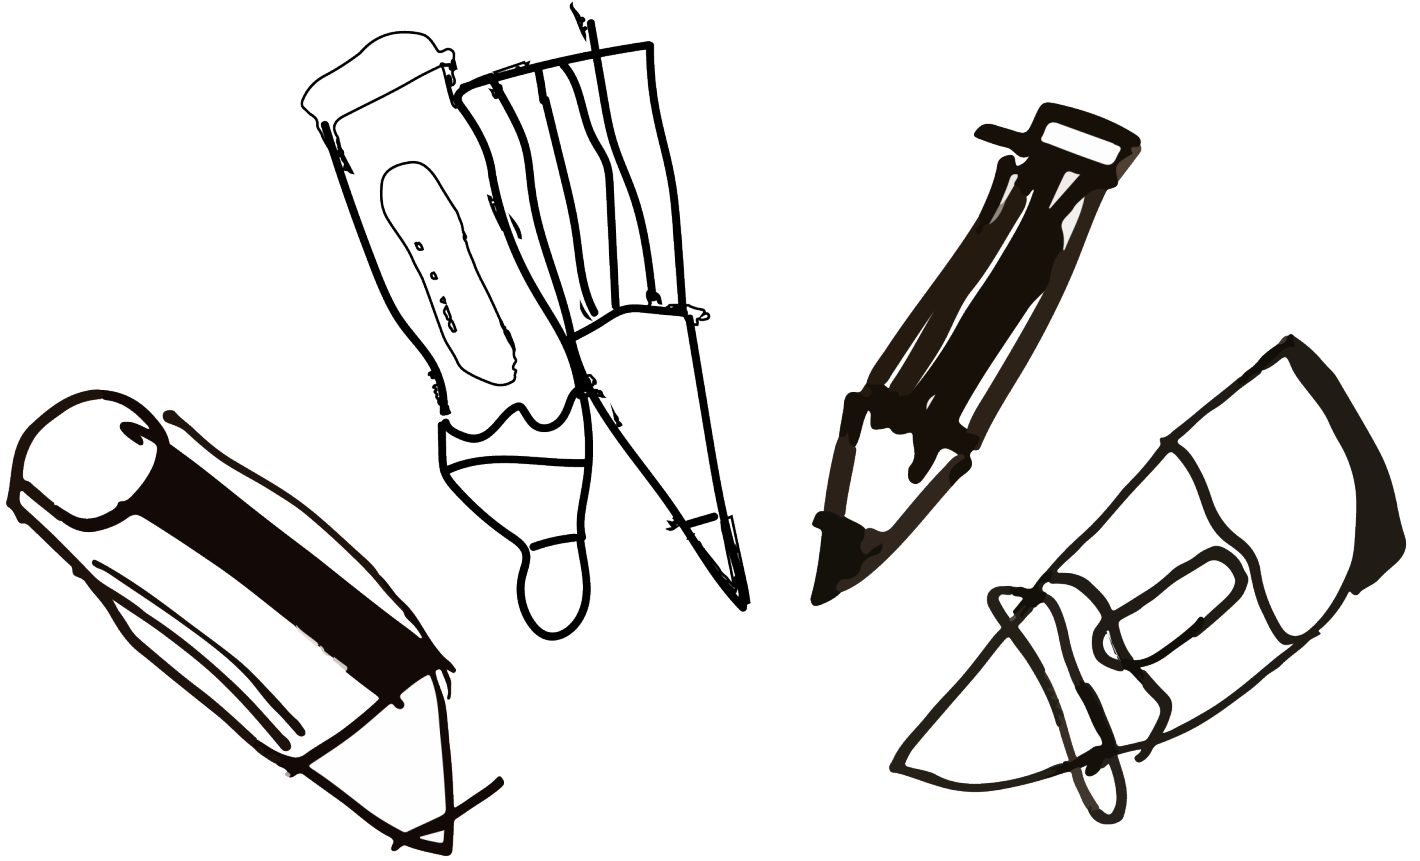

Profesora.

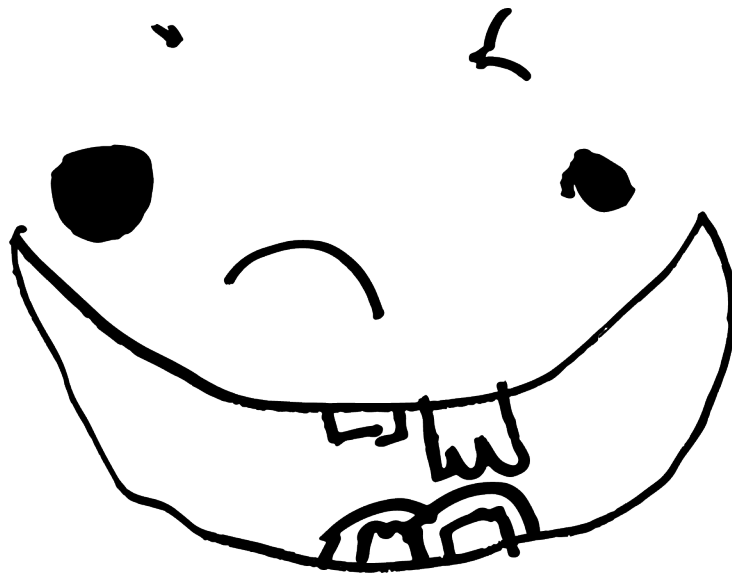

7

Drawings are an interesting way to express your ideas. Sometimes your sketches can say things that words can't. **Think of an idea and draw it in this piece of paper.**

8

To express all of your amazing ideas *you mostly use your mouth* but in order to get them you use all of your body like your brain to come up with them, your ears to listen to others cool ideas that could inspire and so on. **This face is missing some parts. Can you complete it?**

9

Chatting can be done by digital messages but also by *generating a conversation between 2 or more people*. Lets imagine you are talking to one of your closest friends. **Can you write a conversation you two could have? Don't forgete to alternate between you and your friend.**
